ECO 100% RICICLABILE

The Eco-Cart line includes a wide range of products made from 100% and totally recycled cardboard recyclable, certainly the most complete on the market.

The cardboard used is completely in high density paste, to ensure strength, resistance, elasticity.

Furthermore, to preserve the ecological characteristics of the line as much as possible, each print is made dry, thus imprinting lines, marks, symbols on the cardboard, without ink.

The Eco line, for its simplicity, its minimal lines and only the Havana color, stands out for its design and positioning, fully responding to the needs of all those looking for an assortment of products respectful of the environment and price sensitive.

FROM NATURE, WITH RESPECT!

of information regarding the path taken by the products starting from the forest of origin up to the consumer, including each one of processing moments: transformation, production and distribution. The development and implementation of Chain of Custody management systems represent a valid solution to allow an organization to effectively control its production system and to demonstrate to its customers the origin of the materials used in its products.
